For the two-semester A&P laboratory course. Help manage time and improve learning inside and outside of the lab The #1 best-selling Human Anatomy & Physiology Laboratory Manual helps students and instructors manage time inside and outside of the A&P lab classroom and works hand-in-hand with Mastering A&P, the leading online homework and learning program for A&P. The 13th Edition features dozens of new, full-color figures and photos in the review sheets, as well as revamped clinical application questions and critical thinking questions that reinforce the most important concepts from lab. Encourage students to prepare for lab by assigning recommended Mastering A&P activities for each lab exercise, including 18 pre-lab videos (8 are new to this edition), Building Vocabulary Coaching Activities, exercise review sheet assessment questions, art labeling activities, mobile-ready Practice Anatomy Lab(tm) 3.1 with customizable flashcards, and more. Thousands of assignment options in the Item Library are closely correlated with the print edition of the manual, making it easier than ever to create homework assignments that are aligned with your lab activities. Continuing to set the standard for the 2-semester A&P laboratory course, the lab manual complies with the illustration and presentation style of the best-selling Marieb/Hoehn Human Anatomy & Physiology text, but can accompany any A&P textbook. New customization options are available through Pearson Collections, as well as three conventional versions: Main (12th Edition), Cat (13th Edition), and Fetal Pig (13th Edition). Also available with Mastering A&P by combining trusted author content with digital tools developed to engage students and emulate the office-hour experience, Mastering personalizes learning and improves results for each student. Mastering A&P assignments support interactive features in the lab manual, including pre-lab video coaching activities, bone, muscle, and dissection videos, Dynamic Study Modules, Get Ready for A&P, plus a variety of Art Labeling Questions, Clinical Application Questions, and more. Note: You are purchasing a standalone product; Mastering A&P does not come packaged with this content. Students, if interested in purchasing this title with Mastering A&P, ask your instructor for the correct package ISBN and Course ID. Now in its Ninth Edition, Essentials of Human Anatomy & Physiology continues to set the standard for short-course A&P texts with an enhanced media package, an updated art program, and new "active learning" features that help allied health students better visualize and understand the structure and function of the human body. Elaine Marieb's clear and friendly writing style emphasizes the relevance of anatomy and physiology to students' lives and careers. It clarifies concepts, defines key terms, and offers just the right balance of anatomy, physiology, and clinical coverage to make the content complete without being overwhelming. While many authors merely condense a two-semester text to meet a one-semester need, Elaine Marieb wrote this book specifically for the one-semester course and continues to carefully select a range of material that proves just right for the shorter course. New information on hot topics like DNA fingerprinting, contraception, stem cell research, and obesity draws students into the material, while a flexible topic structure allows instructors to choose a chapter sequence to meet virtually any need. CourseSmart textbooks do not include any media or print supplements that come packaged with the bound book.

For two-semester anatomy & physiology lab courses. A concise, workbook-style approach for a fast-paced A&P lab course This full-color laboratory manual is designed for instructors who teach a two-semester anatomy & physiology lab course, but do not require the full range of laboratory exercises found in Marieb and Smith's best-selling Human Anatomy & Physiology Lab Manual (Cat, Fetal Pig, and Main). Written to complement Marieb and Hoehn's streamlined Anatomy & Physiology, 7th Edition, the manual can be used with any two-semester text. The 27 concise, activity-based lab exercises explore fundamental concepts in anatomy & physiology and build students' observational and laboratory skills. The manual's workbook-style approach incorporates visual summary tables, reviews key information, and engages students with hands-on drawing, labeling, and writing activities that can be completed using handy tear-out review sheets. Each lab includes learning objectives and efficient summaries of key concepts, as well as a list of materials needed for conducting the lab. The 7th Edition adds dozens of new, full-color illustrations and photos plus new critical thinking and clinical application questions to the Exercise Review Sheets. To improve clarity and readability, the headings, exercise tabs, and tables feature more saturated colors.

For the two-semester A&P laboratory course. Fully engage students in their A&P Lab experience Human Anatomy & Physiology Laboratory Manual: Making Connections distinguishes itself from other A&P lab manuals by focusing on and addressing the most common teaching challenges in the lab--getting students to engage in the lab, to prepare for the lab, and to apply concepts in the lab. Catharine Whiting's active learning approach incorporates a rich variety of hands-on activities and guided questions to get students engaged and asking questions. The 2nd Edition provides new features, such as "What You Need to Know Before You Start this Unit" at the beginning of each Unit and new Pre-Lab Video Coaching Activities to help students learn what they need to review before lab. Developed as the companion to Erin Amerman's Human Anatomy & Physiology, 2nd Edition, Whiting's lab manual reflects the same superb art program and terminology found in the Amerman textbook. Human Anatomy & Physiology Laboratory Manual: Making Connections, 2nd Edition is available in three versions for your students: Main, Cat and Fetal Pig. The Cat and Fetal Pig versions are identical to the Main version except that they include seven additional cat dissection and nine additional fetal pig dissection exercises, respectively, at the back of the lab manual. Also available with Mastering A&P Mastering(tm) is the teaching and learning platform that empowers you to reach every student. By combining trusted author content with digital tools developed to engage students and emulate the office-hour experience, Mastering personalizes learning and improves results for each student. Mastering A&P assignments support interactive features in the lab manual and include new Pre-Lab Video coaching activities, new Cat Dissection Video and Fetal Pig Dissection Video coaching activities, new fully mobile PAL 3.1 plus PAL 3.1 Customizable Flashcards, Learning Catalytics (tm) , A&P Plus 3D muscle animations, a variety of Art Labeling Questions, Clinical Application Questions, and more. Note: You are purchasing a standalone product; Mastering A&P does not come packaged with this content. Applying Anatomy & Physiology Concepts through Active Learning Developed as the companion lab manual to Amerman's Human Anatomy & Physiology, Catharine Whiting's lab manual takes an active learning approach that uses a rich variety of hands-on activities, along with guided questions, to engage students and help them apply concepts learned in lecture to lab. The active learning approach to Whiting's Human Anatomy & Physiology Laboratory Manual: Making Connections includes unique hands-on activities that use different learning modes including labeling, sketching, touching, dissecting, observing, conducting experiments, interacting with groups, and making predictions. Whiting also includes pre-lab assignments to help students better prepare for lab; and post-lab assignments to solidify learning and challenge students to see interrelationships of concepts across topics. Also available with MasteringA&P® This title is also available with MasteringA&P -- an online homework, tutorial, and assessment system proven to help students learn. It helps instructors maximize lab time with customizable, easy-to-assign, automatically graded assessments that motivate students to learn outside of class and to arrive prepared for lab. The powerful gradebook provides unique insight into student and class performance.

A streamlined, workbook-style approach to the A&P lab This full-color laboratory manual is designed for instructors who teach a two-semester anatomy & physiology lab course, but do not require the full range of laboratory exercises found in Marieb's best-selling Human Anatomy & Physiology Lab Manuals (Cat, Fetal Pig, and Main). This lab manual is written to complement Marieb's Anatomy & Physiology, Sixth Edition, but can be used with any two-semester text. Instructors will find 27 concise, activity-based lab exercises that explore fundamental concepts in anatomy & physiology and build students' observational and laboratory skills. Each lab is presented with learning objectives, cogent summaries of key concepts, and meaningful activities. For instructors who want their students to experience how to use a microscope, a complete exercise on its use and care can be found in Appendix A. The fully revised Sixth Edition provides a more active, workbook-style approach that incorporates more visual summary tables, streamlines information, and engages students with hands-on drawing and review activities. Each lab includes a list of materials needed for conducting the lab, a complete list of learning objectives at the beginning of each exercise to help students track their progress, and up-to-date terminology in accordance with Terminologia Anatomica and Terminologia Histologica. The lab manual also features a full-color, extensive Histology Atlas, Integrated Review Sheets with new full-color art, and new art and photos that help bring A&P to life.

This best-selling Laboratory Manual, written by Terry R. Martin, has been updated throughout. The new 14th edition is available in both a Cat version or a Fetal Pig version. Both versions of the 14th edition are organized into units that correlate directly with the text and include new and updated art to match Hole's Human Anatomy and Physiology, 14e.
