Indianapolis Monthly is the Circle City's essential chronicle and guide, an indispensable authority on what's new and what's news. Through coverage of politics, crime, dining, style, business, sports, and arts and entertainment, each issue offers compelling narrative stories and lively, urbane coverage of Indy's cultural landscape.

For anyone who has ever wondered what it's like to fly the SR-71 on a secret Mach 3 reconnaissance mission, this book has the answer. Completely redesigned and updated with photos from author Colonel Richard H. Graham's personal archive, as well as a new introduction, Flying the SR-71 Blackbird details what an SR-71 mission entailed, from planning to donning a pressure suit to returning to base. The Lockheed SR-71, unofficially known as the Blackbird, was an advanced, long-range, Mach 3 strategic reconnaissance aircraft developed by Lockheed Skunk Works. The aircraft flew so fast and high that not one was ever shot down, even by a missile. SR-71 pilot and instructor Colonel Richard Graham offers a rare cockpit perspective on how regular Air Force pilots and navigators transformed themselves into SR-71 Blackbird crews, turning their unique aviation talents to account in an unprecedented way. Arguably the world's foremost expert on piloting the Blackbird, Graham takes readers along on an operational mission that only a few Air Force pilots have ever experienced.
