~~Engine Light Is On: 2005-2010 Pontiac G6 - What to Do ...~~

May 9, 2019 by Jason. A flashing check engine light is your Pontiac G6's way of saying "I have a serious problem, don't ignore me". Most of the time, that serious problem is a misfire. This flashing light should not be ignored. When your engine is misfiring, it is dumping raw fuel into the exhaust. This raw fuel can detonate, which causes damage to the catalytic converter and the exhaust system itself.

~~Pontiac G6: Flashing Check Engine Light Diagnosis ...~~

Forework. Check engine lights go on when there is a problem in the engine or the emissions control system. You should always have the codes generated by your car's computer scanned and read so you can determine the cause. You can reset the light once you have fixed the problem. Check the Error Codes.
