certification that identifies those with expert-level knowledge and skills in Infrastructure Design. CCDE is parallel to CCIE in terms of difficulty, and expertise. It emphasizes network design principles at the routing layer and recognizes expertise of designers that have the knowledge to assess network business requirements and can translate them into technical specifications to be incorporated into successful designs.

Cisco Certified Design Expert CCDE

The CCDE curriculum prepares designers to develop design solutions at the infrastructure level for large customer networks. Network engineers holding an active CCDE certification are recognized for their expert-level knowledge and skills in network infrastructure design.
