“An excellent introduction to graphic design through [the author’s] own excellent work. Anyone interested in the subject, including most practitioners, will find it delightful.”—Milton Glaser Kids love to express themselves, and are designers by nature—whether making posters for school, deciding what to hang in their rooms, or creating personalized notebook covers. Go, by the award-winning graphic designer Chip Kidd, is a stunning introduction to the ways in which a designer communicates his or her ideas to the world. It’s written and designed just for those curious kids, not to mention their savvy parents, who want to learn the secret of how to make things dynamic and interesting. Chip Kidd is “the closest thing to a rock star” in the design world (USA Today), and in Go he explains not just the elements of design, including form, line, color, scale, typography, and more, but most important, how to use those elements in creative ways. Like putting the word “go” on a stop sign, Go is all about shaking things up—and kids will love its playful spirit and belief that the world looks better when you look at it differently. He writes about scale: When a picture looks good small, don’t stop there—see how it looks when it’s really small. Or really big. He explains the difference between vertical lines and horizontal lines. The effect of cropping a picture to make it beautiful—or, cropping it even more to make it mysterious and compelling. How different colors signify different moods. The art of typography, including serifs and sans serifs, kerning and leading. The book ends with ten projects, including an invitation to share your designs at GoTheBook.com.

Now in paperback: Chip Kidd's introduction to graphic design for kids.

Urban communities have many tall buildings while rural communities have smaller and fewer buildings. But all have some places in common. These provide goods or services that make communities livable.

Chip Kidd is best known for his book jacket designs, which have been credited with spawning a revolution in the art of the book cover in the US. Master of the graphic non-sequitur, Kidd has designed covers for books by authors such as John Updike, Dean Koontz, Michael Crichton, Peter Carey and William Boyd that engage the reader's intelligence as well as imagination. This illustrated volume presents an appraisal of his oeuvre.

All kids experience worries. Helping children understand what worry is, where it comes from, and how to challenge it is the first step in overcoming anxieties. The little elves in this book help children to learn to STOP, to THINK TWICE, and to see their worries for what they are. By presenting new ways of evaluating and overcoming the psychological, spiritual, and physical dimensions of fear, this creative book will help your child find the confidence and courage to say "Worry, Worry, Go Away!"

A fun, playful look at the importance of first impressions—in design and in life—from acclaimed book designer Chip Kidd. First impressions are everything. They dictate whether something stands out, how we engage with it, whether we buy it, and how we feel. In *Judge This*, renowned designer Chip Kidd takes us through his day as he takes in first impressions of all kinds. We follow this visual journey as Kidd encounters and engages with everyday design, breaking down the good, the bad, the absurd, and the brilliant as only someone with a critical, trained eye can. From the design of your morning paper to the subway ticket machine to the books you browse to the smartphone you use to the packaging for the chocolate bar you buy as an afternoon treat, Kidd reveals the hidden secrets behind each of the design choices, with a healthy dose of humor, expertise, and of course, judgment as he goes. *Judge This* is a design love story, exposing the often invisible beauty and betrayal in simple design choices—ones most of us never even think to notice. And with each object, Kidd proves that first impressions, whether we realize it or not, have a huge impact on the way we perceive the world.

A hilarious debut novel that could only be described as a portrait of the designer as a young man. "Um...so what exactly is a Cheese Monkey?" Good question. But strictly off-limits. We can tell you that *The Cheese Monkeys* is a witty and effervescent coming-of-age novel about headless waterfowl, fake plastic babies, and the basic tenets of graphic design. It's 1957, long before computers have replaced the trained eye and skillful hand. Our narrator at State U is determined to major in Art, and after several risible false starts, he ends up by accident in a new class called "Introduction to Graphic Design." Art 127 is taught by the enigmatic Winter Sorbeck, professor and guru (think Gary Cooper crossed with Darth Vader) -- equal parts genius, seducer, and sadist. Sorbeck is a bitter yet fascinating man whose assignments hurl his charges through a gauntlet of humiliation and heartache, shame and triumph, ego-bashing and enlightenment. Along the

way, friendships are made and undone, jealousies simmer, the sexual tango weaves and dips. As readers, we too are under Sorbeck's bizarre spell, spurred on by his demand: "Show me something I've never seen before and will never be able to forget—if you can do that, you can do anything." By the end of *The Cheese Monkeys*, the members of Art 127 will never see the world the same way again. And, thanks to Chip Kidd's insights into the secrets of graphic design, neither will you. "Not only has Chip Kidd altered the face of publishing with his revolutionary book jackets, he has also written a really good debut novel (the bastard), and the big surprise is that the edgy, postmodern graphic designer who radicalized the way we look at the front of books is a pleasing, elegant traditionalist between covers. *The Cheese Monkeys* is a touching throwback: The story of an innocent young man's education, it has suspense, likable and vivid characters, a romantic, pitch-perfect re-creation of late '50s behavior and slang, and an effortlessly sustained comic charm throughout (and without curdling into cuteness -- not a simple achievement). I also can't remember the last time I read what is ostensibly a 'college' novel that actually taught me something." -- Bret Easton Ellis

"I am Ana. I was the wife of Jesus." So begins the new novel from the number one New York Times bestselling author of *The Secret Life of Bees* and *The Invention of Wings*, an extraordinary story set in the first century about a woman who finds her voice and her destiny in a time of great despair and great hope. In her fourth work of fiction, Sue Monk Kidd brings her acclaimed narrative gifts to imagine the story of a young woman named Ana. Raised in a wealthy family in Sepphoris with ties to the ruler of Galilee, she is rebellious and ambitious, a relentless seeker with a brilliant, curious mind and a daring spirit. She yearns for a pursuit worthy of her life, but finds no outlet for her considerable talents. Defying the expectations placed on women, she engages in furtive scholarly pursuits and writes secret narratives about neglected and silenced women. When she meets the eighteen-year-old Jesus, each is drawn to and enriched by the other's spiritual and philosophical ideas. He becomes a floodgate for her intellect, but also the awakener of her heart. Their marriage unfolds with love and conflict, humor and pathos in Nazareth, where Ana makes a home with Jesus, his brothers, James and Simon, and their mother, Mary. Here, Ana's pent-up longings intensify amid the turbulent resistance to the Roman occupation of Israel, partially led by her charismatic adopted brother, Judas. She is sustained by her indomitable aunt Yaltha, who is searching for her long-lost daughter, as well as by other women, including her friend Tabitha, who is sold into slavery after she was raped, and Phasaelis, the shrewd wife of Herod Antipas. Ana's impetuous streak occasionally invites danger. When one such foray forces her to flee Nazareth for her safety shortly before Jesus's public ministry begins, she makes her way with Yaltha to Alexandria, where she eventually finds refuge and purpose in unexpected surroundings. Grounded in meticulous historical research and written with a reverential approach to Jesus's life that focuses

on his humanity, *The Book of Longings* is an inspiring account of one woman's bold struggle to realize the passion and potential inside her, while living in a time, place, and culture devised to silence her.

What do you like? How do you feel? Who are you? This brightly illustrated children's book provides a straightforward introduction to gender for anyone aged 5-8. It presents clear and direct language for understanding and talking about how we experience gender: our bodies, our expression and our identity. An interactive three-layered wheel included in the book is a simple, yet powerful, tool to clearly demonstrate the difference between our body, how we express ourselves through our clothes and hobbies, and our gender identity. Ideal for use in the classroom or at home, a short page-by-page guide for adults at the back of the book further explains the key concepts and identifies useful discussion points. This is a one-of-a-kind resource for understanding and celebrating the gender diversity that surrounds us.

A celebration of the amazing human machine and a life on the move! Your amazing body can jump, sprint, twist, and twirl. Your body is built to move. Lizzy Rockwell explains how your bones and muscles, heart and lungs, nerves and brain all work together to keep you on the go. Kids walk and skate and tumble through these pages with such exuberance that even sprouting couch potatoes will want to get up and bounce around—and that's the ultimate goal. Studies show that American kids are becoming more sedentary and more overweight and that they carry these tendencies with them into adolescence and adulthood. Experts agree that we need to help kids make physical activity a life-long habit. Through education, information, and encouragement, this book aims to inspire a new generation of busy bodies!
