Introduction To
Set Theory, Third Edition,
Revised and ...

The pair (A, R) is called an ordered set. aRb can be read as "a is less than or equal to b" or "b is greater than or equal to a" (in the ordering R). So, every element of A is less than or equal to itself. If a is less than or equal to b, and, at the same time, b is less than or equal to a, then $a = b$.
