Attending the deathbed of a renowned mathematician, his second wife and adult children reflect on their personal demons, including the son's pretty wife, who has caught the attention of the mischievous god Zeus.

A provocative, handpicked collection of relevant (and surprising) essential recipes for today's cook. We have countless recipes at our disposal today but what are the real keepers, the ones that don't just feed us when we're hungry or impress our friends on Saturday night, but inspire us to get into the kitchen? At the forefront of American cooking for more than 20 years, the editors at America's Test Kitchen have answered this question in an essential collection of recipes that you won't find anywhere else: *100 Recipes Everyone Should Know How to Make*. Organized into three recipe sections—Absolute Essentials, Surprising Essentials, and Global Essentials—each recipe is preceded by a thought-provoking essay that positions the dish. For example, *Treating Pasta Like Rice Simplifies Everything*; *A Covered Pot Is a Surprisingly Good Place to Roast a Chicken*; and *Re-imagine Pie in a Skillet to Simplify the Process*. You'll find useful workday recipes like a killer tomato sauce that's almost as easy as opening a jar of the store-bought stuff; genius techniques for producing amazing flavor—try poaching chicken breasts over a garlic-and-soy-spiked brine (trust us, it's that good); and familiar favorites reinvigorated—the best beef stew comes from Spain (and it's even easier to make than the stateside stew you've been eating for years). Gorgeous photography (shot right in the test kitchen) accompanies every recipe, revealing the finished dish as well as highlights of its preparation. Likely to stir debate among anyone interested in food and cooking, *100 Recipes Everyone Should Know How to Make* provides a snapshot of how we cook today and will galvanize even the most jaded cook to get into the kitchen. From the Hardcover edition.

Principles of Physics is a well-established popular textbook which has been completely revised and updated.

This oversized lift-the-flap board book of a child's first 101 words has big, clearly labeled photos of objects in a baby and toddler's world with an interactive puzzle activity on each spread. Identifying words and their meanings is an important foundational step in language development for babies and toddlers, and *Highlights brings Fun with a Purpose®* into this essential learning. Babies will love looking at and naming the photos in this sturdy book, while toddlers and parents will enjoy the lift-the-flap questions and answers that help them find the cute red bird hidden on each spread.

Derek Lundy recounts how he travelled along both the U.S.-Mexican and Canada-U.S. border in order to analyze the United States' post-911 security practices.

This must-read for lovers of Stephen King's *The Shining* will leave readers breathless as Seda and her family find themselves at the mercy of a murderer in an isolated and snowbound hotel. Get ready for what Kirkus calls "A bloody, wonderfully creepy scare ride." When her mom inherits an old, crumbling mansion, Seda's almost excited to spend the summer there. The grounds are beautiful and it's fun to explore the sprawling house with its creepy rooms and secret passages. Except now her mom wants to renovate, rather than sell the estate—which means they're not going back to the city...or Seda's friends and school. As the days grow shorter, Seda is filled with dread. They're about to be cut off from the outside world, and she's not sure she can handle the solitude or the darkness it brings out in her. Then a group of teens get stranded near the mansion during a blizzard. Seda has no choice but to offer them shelter, even though she knows danger lurks in the dilapidated mansion—and in herself. And as the snow continues to fall, what Seda fears most is about to become her reality...

“Darlison elucidates the zodiac’s significant place in the Gospels, most specifically in the Book of Mark . . . An intriguing leap into faith” (Kirkus Reviews). For millennia the world has been driven by the differences between the great patriarchal religions. Western civilization—or Christendom, as it was once called—received its values and its confidence from a belief in God, the Father, and Jesus, his only son. But what if this conviction were founded on an error? Who is the man in the factually inconsistent Gospel stories? And who is the man who makes a brief appearance carrying a jar of water? This extraordinary study by a Unitarian minister suggests that Jesus never existed historically; he was simply a representation of an astrological theology—a representation, simply put, of the zodiac sign of Aquarius. In *The Gospel & the Zodiac*, Rev. Bill Darlison demonstrates that all the other signs are present too, in perfect zodiacal order. The Gospel story is not the product of historians or eyewitnesses, but an older, mystical text produced by an ancient, esoteric school as a guide to the Age of Pisces. Every bit as revelatory and controversial as it sounds, *The Gospel & the Zodiac* will shake up the religious status quo, and in doing so, provide both a new look at a religious icon and a deeper understanding of the faith that binds millions together. “Darlison begins by looking at different scholarly approaches to the gospels, then outlines his astrological interpretation logically and lucidly, matching the zodiacal signs to the narrative of Mark.” —*Fortean Times*
