Forth is an imperative stack-based computer programming language and environment originally designed by Chuck Moore. Language features include structured programming, reflection, concatenative programming and extensibility. Although not an acronym, the language's name is sometimes spelled with all capital letters as FORTH, following the customary usage during its earlier years. A procedural programming language without type checking, Forth features both interactive execution of commands and the

The C++ Programming Language is a computer programming book first published in October 1985. It was the first book to describe the C++ programming language, written by the language's creator, Bjarne Stroustrup. In the absence of an official standard, the book served for several years as the de facto documentation for the evolving C++ language, until the release of the ISO/IEC 14882:1998 ...
