Building a home theater room can often be the true endpoint of home remodeling. Once you have concluded the more utilitarian work of fixing windows and installing floors, it's time to reach deeper into the bank account and lavish attention on your entertainment needs. After all, who doesn't need a home movie theater room?. But a home theater room is more than just a sofa and a screen.

15 Tips for Building the Perfect Home Theater Room

The practice of theatre design can encompass open-air spaces or spaces that are fully enclosed. It can involve a temporary structure put up only on certain occasions or a

complete stand-alone permanent building. It can include purpose-built areas within larger complexes or the modification of buildings originally built for other purposes.

Theatre design | architecture | Britannica

Home theater risers play a major role while setting up your home theater to ensure a pleasant movie experience for all the audience. Various aspects like construction and the number of rows should be taken care of while deciding the height of the riser. Meanwhile, you can also go for ready built-in risers and recliners with pre-built risers.

Thailand to build a puppet theatre. After doing a little research on the net, I came up with this design. I played a bit on the design for the foldable wings, but in the end opted for butterfly wings.

Puppet Theatre : 13 Steps - Instructables

The ideal space for a home theater is 20 feet long by 13 feet wide and relatively isolated from the rest of the house. "It has to be in a place that does not interrupt the business of the home," says Rob Rickel, president of RSR Custom Renovations and Additions. "You don't want the sound disturbing everyone."
