This lauded work of science fiction and New York Times Notable Book of the Year explores a universe where genetic mutations have allowed certain individuals to traverse the stars. It is the second stage of human colonization—the first age, humanity's initial attempt to people the stars, ended in disaster when it was discovered that Earth's original superluminal drive did permanent genetic damage to all who used it—mutating Earth's far-flung colonists in mind and body. Now, one of Earth's first colonies has given humanity back the stars, but at a high price—a monopoly over all human commerce. And when a satellite in Earth's outer orbit is viciously attacked by corporate raiders, an unusual young woman flees to a ship bound for the Up-and-Out. But her narrow escape does not mean safety. For speeding across the galaxy pursued by ruthless, but unknown adversaries, this young woman will discover a secret which is buried deep inside her psyche—a revelation the universe may not be ready

Three hundred years had passed since the Tyr conquered the people of Earth as they had previously overcome numerous races throughout the galaxy. In their victory they had taken the very heart out of the human race, isolating the true individualists, the geniuses, all the people who represented the hopes, dreams, and discoveries of the future, and imprisoning them in dome colonies on planets hostile to human life. There the Tyr, a race which itself shared a unified gestalt mind, had left these gifted individuals to work on projects which would, the conquerers hoped, reveal all of human kind's secrets to them. Yet Daetrin's secret as one no scientist had ever uncovered, for down through the years he had succeeded in burying it so well that he had even hidden his real nature from himself. But, taken into custody by the Tyr, there was no longer any place left for Daetrin to run, no new name and life for him to assume. Now he would at last be forced to confront the truth about himself—and if he failed, not just Daetrin but all humans would pay the price...

Blending science fiction and fantasy, the second book of the Coldfire Trilogy continues a dark tale of an alien world where nightmares are made manifest. Two men, absolute enemies, must unite to conquer an evil greater than anything their world has ever known. One is a warrior priest ready to sacrifice anything and everything for the cause of humanity's progress; the other, a sorcerer who has survived for countless centuries by a total submission to evil. In their joint quest, both will be irrevocably changed. When True Night Falls is the sequel to C. S. Friedman's acclaimed Black Sun Rising.

Over a millennium ago, Erna, a seismically active yet beautiful world was settled by colonists from far-distant Earth. But the seemingly habitable planet was fraught with perils no one could have foretold. The colonists found themselves caught in a desperate battle for survival against the fae, a terrifying natural force with the power to prey upon the human mind itself, drawing forth a person's worst nightmare images or most treasured dreams and indiscriminately giving them life. Twelve centuries after fate first stranded the colonists on Erna, mankind has achieved an uneasy stalemate, and human sorcerers manipulate the fae for their own profit, little realizing that demonic forces which feed upon such efforts are rapidly gaining in strength. Now, as the hordes of the dark fae multiply, four people—Priest, Adept, Apprentice, and Sorcerer—are about to be drawn inexorably together for a mission which will force them to confront an evil beyond their imagining, in a conflict which will put not only their own lives but the very fate of humankind in jeopardy.

In the High Kingdom of Danton Aurelius, magisters from across the known world are gathering for an unusual meeting. The High King's son is dying of an apparently incurable wasting disease, and he has charged them with providing an explanation and a cure. There is a mystery here, but not the one the High King thinks: the magisters know the cause of the prince's illness but they dare not reveal it for fear that it will expose the secret at the heart of their order. No, the mystery is not what is responsible, but who. . . Now the magisters must embark upon a manhunt, racing against time, before the High King learns the truth. But they have not counted on the young prince's determination to control his own fate, nor on the existence of Kamala, a young woman schooled in their own arts, who will soon shake the world to its very roots.
