What You Wish For A Novel Kerry Reichs

"The story's message, that people should choose joy even (and especially) in difficult and painful times, seems tailor-made for this moment. A timely, uplifting read about finding joy in the midst of tragedy, filled with quirky characters and comforting warmth."—Kirkus (starred review) From the New York Times bestselling author of How to Walk Away comes a stunning new novel full of heart and hope. Samantha Casey is a school librarian who loves her job, the kids, and her school family with passion and joy for living. But she wasn't always that way. Duncan Carpenter is the new school principal who lives by rules and regulations, guided by the knowledge that bad things can happen. But he wasn't always that way. And Sam knows it. Because she knew him before—at another school, in a different life. Back then, she loved him—but she was invisible. To him. To everyone. Even to herself. She escaped to a new school, a new job, a new chance at living. But when Duncan, of all people, gets hired as the new principal there, it feels like the best thing that could possibly happen to the school—and the worst thing that could possibly happen to Sam. Until the opposite turns out to be true. The lovable Duncan she'd known is now a suit-and-tie wearing, rule-enforcing tough guy so hell-bent on protecting the school that he's willing to destroy it. As the school community spirals into chaos, and danger from all corners looms large, Sam and Duncan must find their way to who they really are, what it means to be brave, and how to take a chance on love—which is the riskiest move of all. With Katherine Center's sparkling dialogue, unforgettable characters, heart, hope, and humanity, What You Wish For is the author at her most compelling best.

If you could make one wish that was guaranteed to come true—what would you wish for? Rules for Wishing. Never let an outsider find out about wishing. (Zip your lips and throw away the key.) Wishes that would impact the world are off limits (i. e. no bringing back the dinosaurs). Do no harm. (Murder = no bueno.) No time travel. (What's done is done, pal.) No bringing back the dead. (Come on. You've seen what happens in THE WALKING DEAD.) NEVER BREAK THE RULES. (Seriously. We mean it. See Rule #7.) There are always consequences. Madison is a small town in the Mojave desert on the road between nothing and nowhere. It's an unremarkable speck on the map, which is perfect for protecting the town's secret. Because in Madison, everyone can make one wish on their eighteenth birthday and that wish always comes true. Most of Eldon's classmates have had their wishes picked out for months, even years. Not Eldon. He's seen how wishing has hurt the people around him. His parents' marriage is strained, his sister is a virtual ghost in their house, his ex-girlfriend is dating his ex-friend...where does he even begin? One thing is for sure: Eldon has only twenty-five days to figure it out—and the rest of his life to live with the consequences.

A boy named Ken with a disturbing resemblance to the doll of the same name stalks her. As the ghosts of Kayla's wishes-past appear, they take her on a wild ride. . . . but they MUST STOP. Because when she was fifteen? She wished Ben Mackenzie would kiss her. And Ben is her best friend's boyfriend.
